

THE TREND DESIGNERS
DAY SPA

Bridal Contract

Thank you for choosing Trend Designers for your special day! Here's some friendly tips that will help you and your bridal party achieve the best experience with your hair and makeup on your big day!

- ❖ The best hair for wedding styling is "clean dirty" Please have everyone in the bridal party that's getting their hair done washed and dried the night before, but no heat styling after. Unless scheduled for a blow out, have hair clean and wet upon arrival for us to apply products and blow dry.
- ❖ Freshly waxed eyebrows and upper lip will always make your makeup that much prettier. Waxing should be done 4-7 days prior, if done too soon makeup has a higher chance of not adhering properly.
- ❖ Please have everyone exfoliate their lips, a toothbrush will do the trick, and moisturize the night before and day of the wedding.
- ❖ Please have everyone do a nice mild scrub 2-3 times the week of wedding, this will help smooth and soften the skin prior to makeup application as well. Everyone getting a makeup application should come with a clean moisturized face.
- ❖ If you get a facial leading up to the wedding be sure to let them know of your wedding date to prevent any accidental reactions or harsh products being used.
- ❖ Wear lots of sunscreen if you're going to be in the sun, this prevents accidental peeling/dry skin.
- ❖ For maximum glow be sure to drink plenty of water the week of wedding!
